Subject: Update to SOW for Abt
Attachments: SWRCB_SOW_EA for Methylmercury and Toxicity.docx

Hi Rik,

I did a cut and paste on the last Statement of Work we did for Abt back in 2012. Can you please update the sections on mercury and toxicity to outline the work needed revise the previous work that Abt did along with a new timeframe? HQ would like the SOW this week, so let me know if that's possible. I'm also hoping for the FY 15 award soon so that I can put the funds (\$55 K for this and \$45K for selenium) into the new task order. I'm meeting with my grants specialist tomorrow, so hopefully she can give me an estimate.

Thanks,

Matt
